# A BIG YEAR

## **Donors to the sanctuary have accomplished big things in 2019 at Chimpanzee Sanctuary Northwest!**

Phase 1 of the *Bring Them Home* Campaign for Expansion was completed! New spaces include a medical clinic, expanded enrichment and laundry facilities, and the start of a new home for more chimpanzees!

Your donations made it possible for us to act quickly when we learned of the closure of Wildlife Waystation and the 42 chimpanzees stranded there.

Honey B, Willy B, and Mave were in particular need. They are now thriving at Chimpanzee Sanctuary Northwest as we work to expand their home and help more chimpanzees.

# LOOKING AHEAD

## **2019 was a turn to the next chapter for Chimpanzee Sanctuary Northwest.**

As a donor, former volunteer, board member, and overall fan of the sanctuary, I was beaming with pride that CSNW added to the family by rescuing Honey B, Willy B, and Mave from Wildlife Waystation this year.

We had hoped for successful integration with the Cle Elum 7, but the chimpanzees decided otherwise. The new three, however, readily won over the staff, volunteers, and supporters of the sanctuary with their resilience, bravery, and antics.

And now, together, we forge ahead to provide exemplary care for our current chimps and cattle and to raise funds and build infrastructure to bring home additional chimps in need.
